- ✓ The chat can be customized by suggested wordings, or open to the advertiser’s own text

CHAT CAN BE FILTERED TO TAILOR THE ADVERTISER’S NEEDS AND REQUESTS BASED ON RULES OF SUCH AS:

- ✓ Number of times the customer has looked at the listing
- ✓ Location of the potential buyer
- ✓ Time the customer stayed on the listing page

Customers can also initiate a chat with the advertiser, by clicking a “chat” button which appears only if the advertiser is available for chat.

An “on-off” button enables the advertiser to close the chat button on the listing to avoid alerts or chats when unavailable.
